

K One HR – Infinity

SMART HR & PERFORMANCE MANAGEMENT FOR SCHOOLS

Save Time on Daily Administration

Automate attendance, leave management, and employee records—freeing administrators and teachers from repetitive manual work.

AI Facial Recognition Attendance

Contactless, selfie-based attendance with GPS & geo-tagging for real-time, location-verified tracking.

Academics-Driven Performance Analytics

Objective teacher ratings powered by student academic performance data.

Consolidation of Reviews, appraisals

Fair appraisals using weighted feedback from teachers, supervisors, and the Principal, conducted at flexible intervals.

Academics-Driven Performance Evaluation

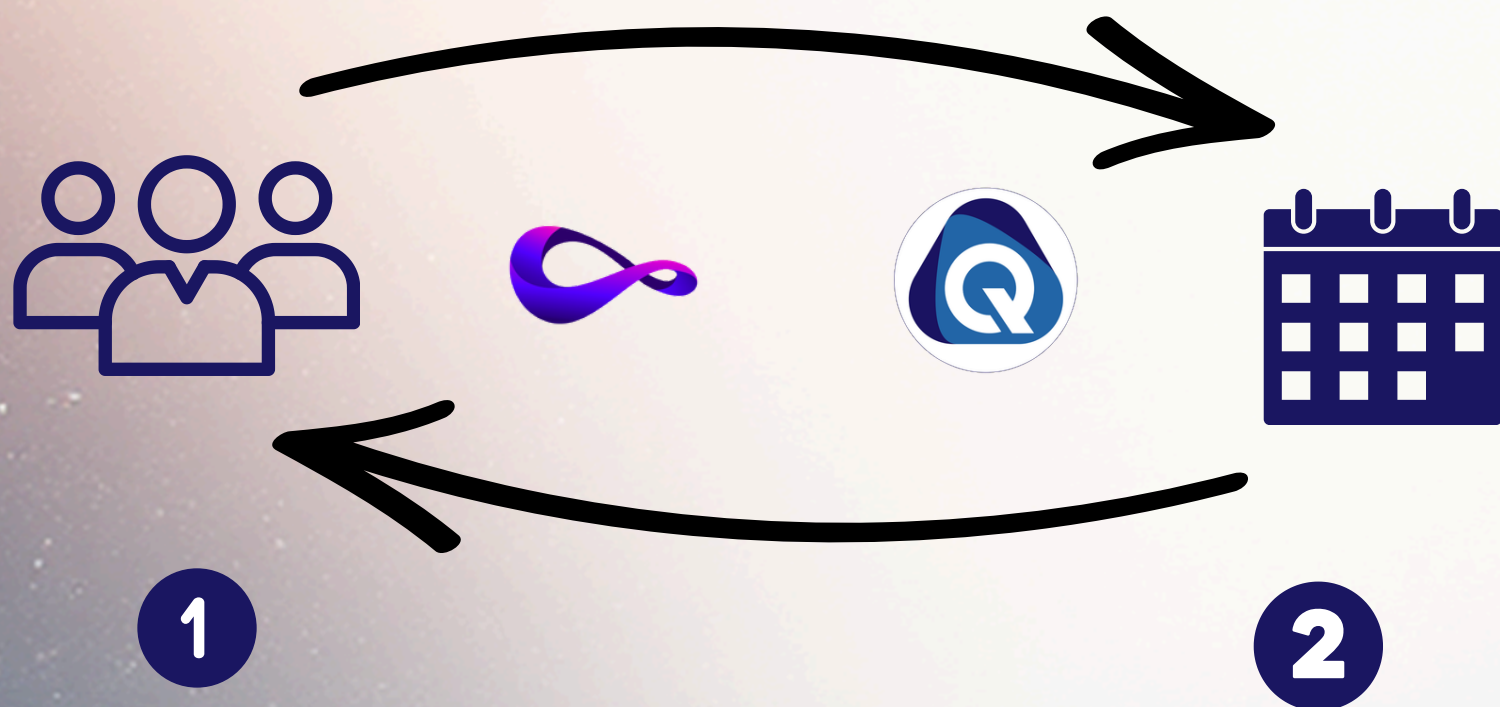

Teacher performance evaluated through student academic analytics for objective ratings.

Timetable And HRMS

The fusion of artificial intelligence (AI) and human resource management systems (HRMS) has brought about a paradigm shift in educational institution management, exemplified by AI-enabled timetables—a groundbreaking advancement transcending conventional scheduling, with profound effects on teacher evaluation and substitution oversight.

Scheduling

Auto- sync attendance for precise timetable scheduling, Streamline payroll, saves time.

Performance

Knowing the number of substitution classes for a particular teacher can affect their performance.
