

Secure. Effortless. No Extra Devices Needed

Intelligent Route Optimization

Empower your institution with advanced face recognition that requires no additional hardware. Simply register users once, and attendance is automated through your smartphone camera.

Optimized Pathfinding

Minimizes travel time and fuel costs through smart routing

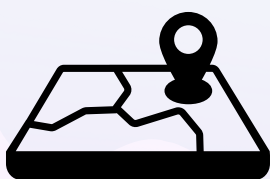

Proximity Notifications

Sends instant alerts to parents as the bus approaches

Student Transit Logs

Records the exact time and place of every boarding

Precision Geo-Fencing

Uses specific coordinates to trigger accurate stop-arrival notifications

Enhanced Student Safety

Ensures total visibility for administrators and peace of mind for parents
